Controlled Environment Solutions

Company Overview

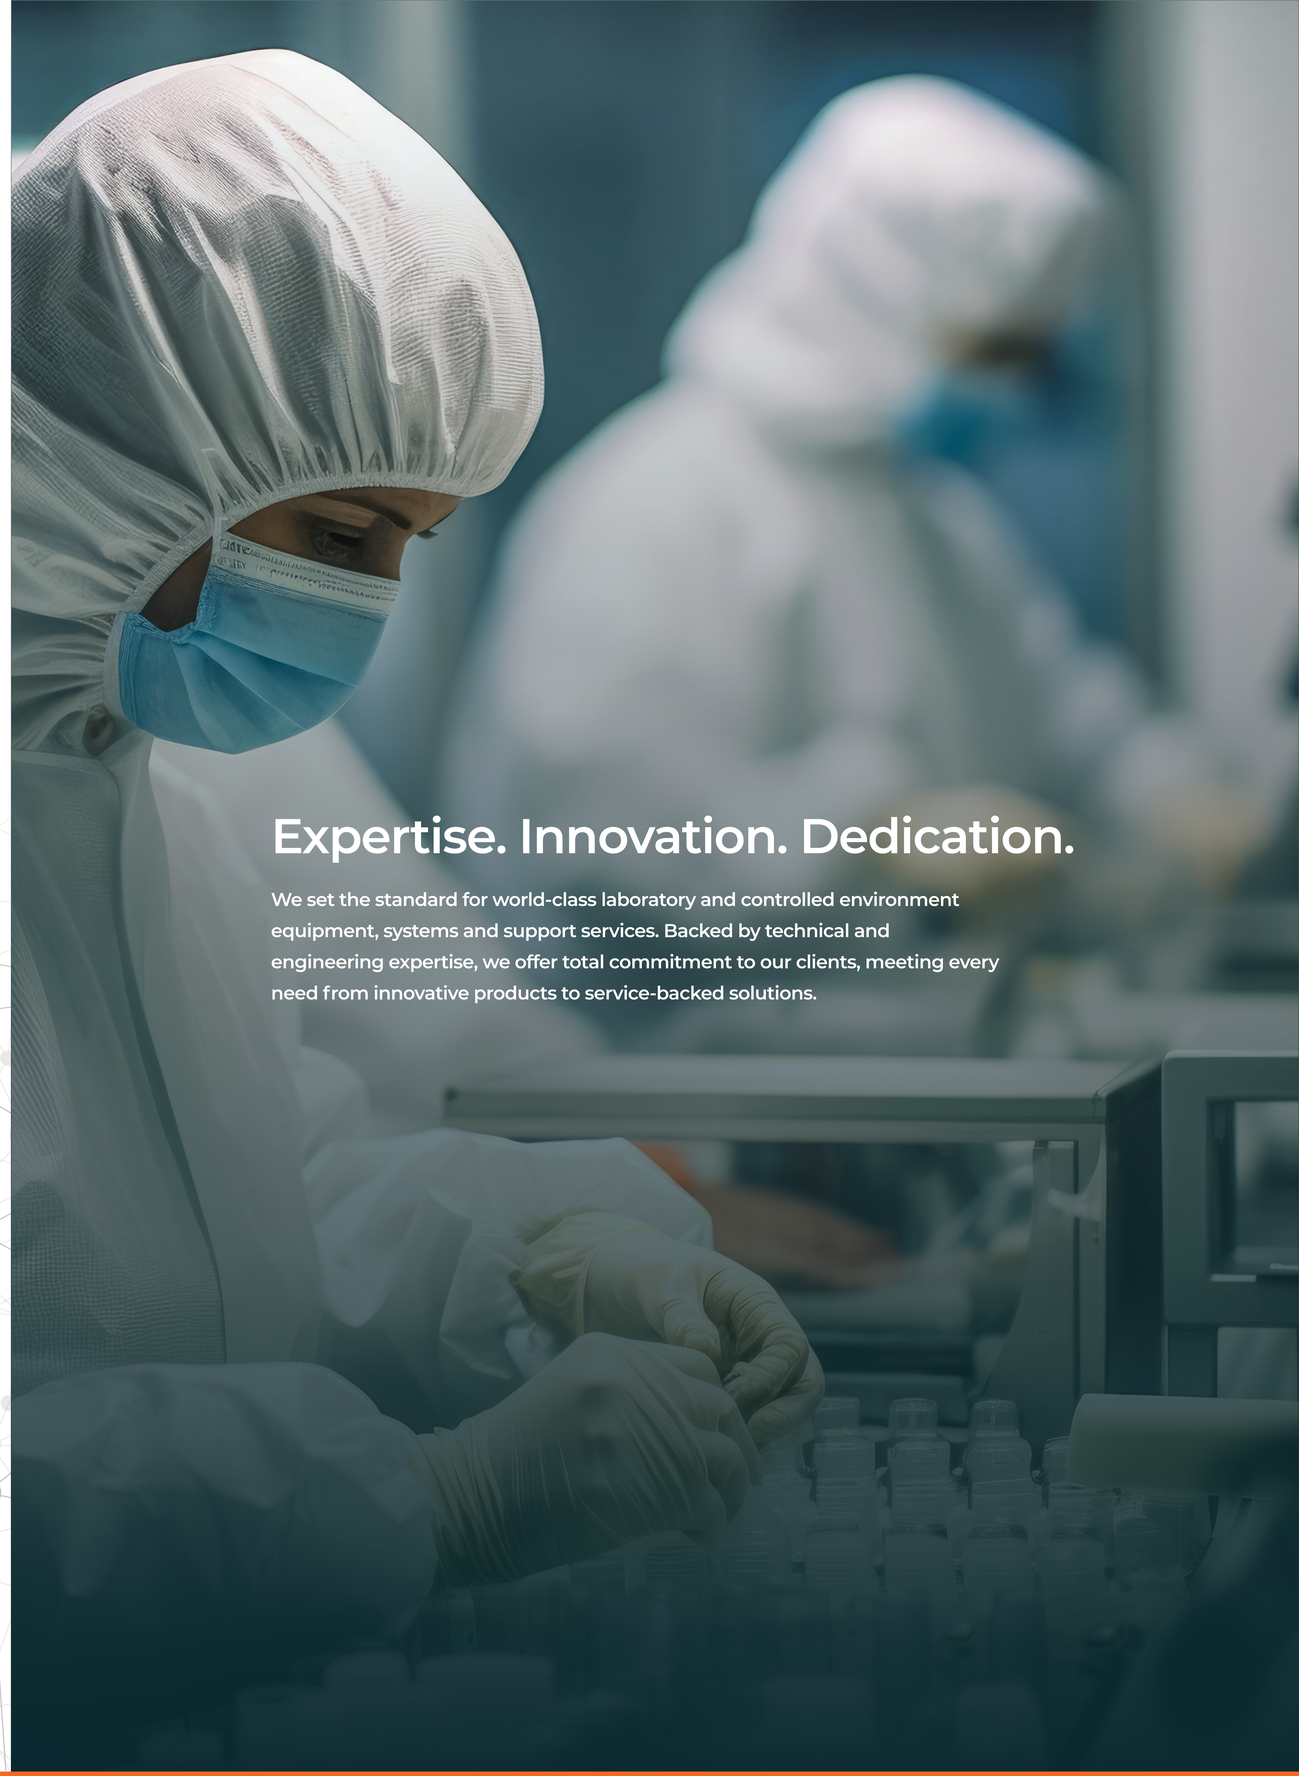
Company overview

Complete controlled environment and laboratory solutions

Established in 1987, LAF technologies has emerged as a premier supplier and service provider specialising in contamination control, scientific instrumentation, particle measurement, environmental monitoring, and laboratory equipment across Australasia.

Our NATA accreditation and comprehensive range of certifications, including ISO 17025, ISO 9001, ISO 14001, and ISO 45001, underscore our commitment to quality assurance and operational excellence. Headquartered in Melbourne with additional offices in Sydney, and sales and service facilities in Queensland and Tasmania, LAF technologies offers a specialised distribution network ensuring efficient delivery and expert technical support.

Our dedicated approach focuses on supporting, servicing, and validating technical plant and equipment throughout its lifecycle, ensuring customers receive exceptional support and reliable solutions. Partnered with leading brands, and global manufacturers, LAF tech's focus is to supply the highest quality equipment in Australia. LAF tech is committed to constant improvement and innovation, delivering best-in-class products and services.



Our expertise

Technical service, commissioning and qualification

Ensure the accuracy and reliability of your equipment, instrumentation, and controlled environments with our comprehensive range of technical services. LAF Tech employs a large team of highly trained field service engineers and customer service staff dedicated to testing controlled environments, as well as servicing, supporting, and certifying systems and laboratory equipment throughout Australasia.

Our nationally recognised service team is one of the most experienced in the Southern Hemisphere. From initial inquiry to ongoing support, we guide you through every aspect of your key asset management needs. We'll ensure your equipment and controlled environments operate at peak performance and comply with all regulatory requirements.

NATA-accredited calibration services

Guarantee the accuracy of your instruments with NATA-accredited calibration performed by qualified professionals.

NATA-accredited testing services

Benefit from NATA-accredited testing services that provide independent verification of your equipment's performance.

Bio-Decontamination

Maintain a safe and sterile laboratory environment with expert bio-decontamination services.

Environmental monitoring systems

Clean Room and Laboratory environmental monitoring system projects and technical support.

IOQ (Installation Operational Qualification) services

Verify the proper installation and functionality of your equipment with IOQ services.

Commissioning & validation services

Ensure your equipment is properly installed, qualified, and meets performance specifications through commissioning and validation services.

Our products

Quality equipment, compliance, and regulatory solutions

We are recognised as the leading technical supplier of international, best-in-class laboratory and controlled environment solutions across Australia and New Zealand. Our focus on cutting-edge technology ensures that your operations stay at the forefront of scientific and industrial advancements in the life sciences sector.

- Anaerobic & Hypoxia Solutions
- Bio-Decontamination-UVC
- Chemical & Powder Safe Handling
- Cleanroom & Facility Monitoring
- Contamination Control Equipment
- Cryogenic Storage
- Filters & Test Instrumentation
- Forensic Equipment
- General Laboratory Equipment
- Incubators & Chambers
- Lab Water Purification Systems
- Laboratory Cold Storage
- Ovens & Furnaces

We are exclusive distributors for:

The LAF tech advantage

NATA Accredited and ISO Certified

As a comprehensive solution provider, we deliver support, service, and validation for our technical offerings. Our national team of industry experts performs thousands of tests annually for numerous leading organizations across Australasia, adhering to a wide array of regulatory requirements and associated standards.

Accessible, reliable services

Leading service, mechanical testing, and calibration centres in Australia.

We recognise how vital reliable equipment is for your laboratory. That's why we provide extensive customer support and technical services through our accredited facilities and asset management systems.

Our locations are NATA accredited, guaranteeing accuracy and traceability. Our dedicated field service team is available 24/7/365, ready to meet your equipment needs anytime, anywhere across Australia. This nationwide network minimises downtime and maximises the performance of your laboratory instruments and associated facilities.

A full-house solution for a range of businesses

Industry we service

- Animal Health
- Bio Security Containment
- Cell Culture ATMP
- Compounding Pharmacies
- Clean Room
- EMS Cleanroom Monitoring
- Education Facilities
- Filter Testing & Certification
- Food Production
- Forensic Services
- GMP Pharmaceutical
- HVAC
- Healthcare Hospitals
- Indoor Air Quality
- Life Science Research
- Laboratory Cold Storage
- Medicinal Cannabis
- Particle Research Instruments
- Particle Monitoring
- Research Laboratories
- University Sector
- UVC Disinfection
